

SPECIFICATION

Name	Rubber Studded Tile
Pile Weight	5 mm / 3 mm
Width	2'
Length	2'

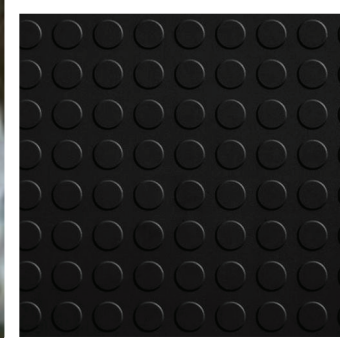

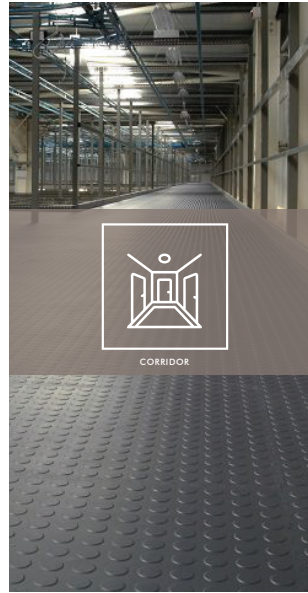

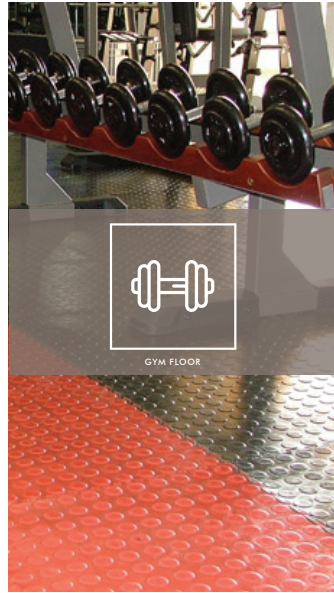

WHAT IS RUBBER STUDDED TILE

Studded rubber flooring combines the resilience of rubber with the safety of an elevated standard of slip resistance. Ensuring a stable posture in situations where the rubber flooring may be wet or slippery is the key objective of the Huereux studded flooring collections.

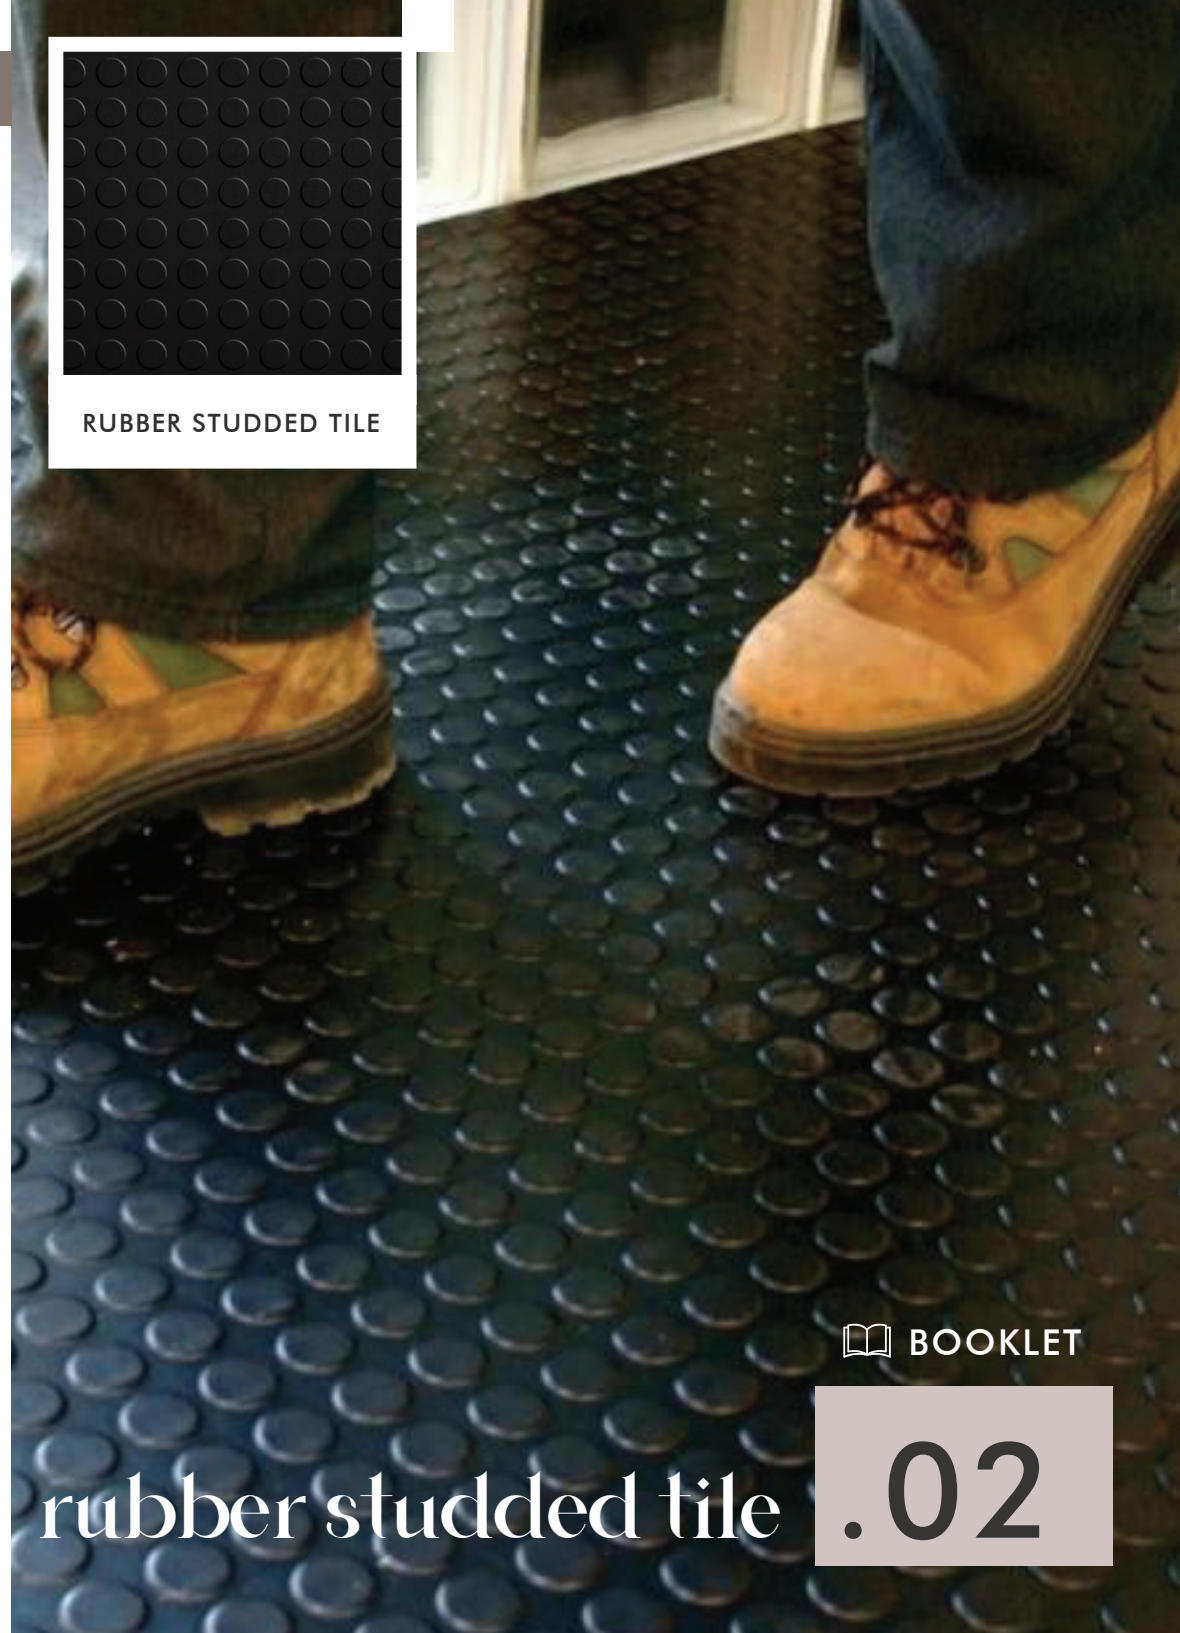

MAINTENANCE

- Remove any loose dirt and debris by thoroughly sweeping the area or using a vacuum cleaner.
- Once the surface is debris-free simply use a mop (dolly mop or spin mop is recommended) and a good floor cleaner.
